

Vansh Nazwani

Full Stack Developer — AI and Data-Driven Applications

☎ +91-9675914307 ✉ Email 🔗 LinkedIn 🌐 GitHub 🌐 Portfolio 📄 LeetCode

Professional Summary

Motivated BCA student with hands-on experience in full stack web development. Strong foundation in JavaScript, backend development, databases, and REST APIs. Quick learner with a problem-solving mindset and a focus on building scalable, user-friendly applications.

Education

Bachelor of Computer Applications (BCA)

Galgotias University, Greater Noida

2023 – Present

CGPA: 7.4 / 10

John Milton Public School, Agra

Class XII (CBSE)

2022 – 2023

Percentage: 85%

Technical Summary

Languages: JavaScript (ES6+), Python, C++, C, HTML5, CSS3

Frontend: React.js, Redux, Bootstrap, Tailwind, EJS, Responsive UI

Backend: Node.js, Express.js, REST APIs, Auth, Sessions, MVC, API Security

Databases: MongoDB, MySQL, Mongoose, Schema Design, Aggregation, Indexing

AI/ML: NumPy, Pandas, Scikit-learn, TensorFlow, NLP, Model Evaluation

Cloud & DevOps: Git, GitHub, Docker, AWS (Basics), CI/CD, Postman, Netlify

Additional: Linux Commands, Shell Scripting, Web Security, JWT, OAuth, Version Control

Soft Skills: Communication, Problem Solving, Collaboration, Analytical Thinking

Core Technical Skills: Data Structures, Algorithms, OOP, OS, Networks, DBMS, Software Engineering, System Design Basics

Experience

Full Stack Web Development Intern

VPN Digital Service Pvt. Ltd.

Dec 2025 – Present

Remote

Contributed to frontend and backend development with database integration.

Assisted in API development, feature implementation, and bug resolution.

Full Stack Developer Intern 🔗

Insight Quest Tech

Oct 2025 – Nov 2025

Remote

Developed REST APIs, authentication modules, and dashboard components.

Improved UI workflows and optimized backend queries.

Key Projects

UniMart – Student Marketplace 🌐 🌐

Built a MERN-based marketplace with authentication, CRUD operations, and search.

Implemented image uploads, user roles, and optimized database queries.

SmartQueue – Real-Time Token Management System 🌐 🌐

Developed a real-time queue system using MERN and WebSockets.

Designed role-based dashboards and improved API performance.

Certifications

Oracle AI Foundations Associate 🔗
